NEW CLUE TO MAN MISSING 2 YEARS

Another Arrest Is Made in the Harsell Case

New York Clubman Who
Disappeared Two Years
Ago on Hike Through
Mountains Believed to
Have Been Murdered.

Interest Keen In Election Of City Policemen

Increased interest is manifested in the forthcoming election of city policemen which will be held on March 6th at three o'clock and at which time half of the force will be chosen.

On that date the police commission composed of five members will elect a ten or twelve-man force of police, two police sergeants, two police detectives and eleven patrolmen.

Under the new regulations which have been adopted by the police commission the old men, all of whom are expected to re-apply for their positions, will have to submit to mental and physical examinations at the hands of Dr. J. E. Taylor, police examiner. Applications and examinations, one of the commissioners said this morning, must be on file with the secretary of the police commission at the chief of police office late this month.

Harsell came from Roanoke, Va., two years ago and a few days later started on a hike through the mountains to get in condition for a proposed trip to America the following summer. Failing to arrive at his destination, detectives began searching for him and traced him and traced him to Mitchell county, and traced him to Mitchell county where all trace was lost.

As the result of the enquiry John Rathwater, a noted character of the hills, was arrested and tried for the murder of Harsell. He was acquitted and since then slight interest continued a quiet search resulted in the arrest of Buchanan, a friend of Rathwater. Officers declined to divulge the evidence.

(By The Associated Press)

SEVERAL ARRESTS HAVE BEEN MADE

BAKERSVILLE, N. C., Feb. 24—Grady Buchanan is in jail here. Fons Buchanan is being held at Jonesboro, Tenn., while a requisition paper for his apprehension was being sought and warrants have been issued for Green Bill Rainwater, all charged with complicity in the alleged murder of Blase Harsell, wealthy New York clubman who disappeared in Pigeonfoot creek section just inside the Tennessee border in March 1921.

Farm Credit
Bill Ready
For Action

(By The Associated Press)
WASHINGTON, Feb. 24—A committee from a credit bill embracing possible features of the Lenroot-Ardsley-Campbell bill was completed today by the House banking committee.

Chairman McMillan said it would be reported to the House Monday and taken up for passage on Tuesday. The measure McMillan said would set up a six-million-dollar intermediate credit organization as an adjunct to the federal farm loans bank system.

The chairman said a bill had been worked out which he believed could pass the house with little opposition. The committee will meet again to harmonize differences, in order to make possible a unanimous report to the House.

Railway Stock
Takes Big Jump

(By The Associated Press)
NEW YORK, Feb. 24—Louisville and Nashville stock jumped four points to 154½ on announcement that the Interstate Commerce Commission had granted the road permission to issue \$15,000,000 in new stock and distribute it as a stock dividend. This price represents an increase of nearly 25 points from the low mark this year.

Atlantic Coast Line which owns 70 per cent of the Louisville and Nashville stock, also made a gain.

Pollard Cleared
Promptly by Jury

Sensational Richmond Case
Ends in Acquittal of Real
Estate Man.

(By The Associated Press)
RICHMOND, Va., Feb. 24—Thomas Arnstein, prominent local real estate and insurance broker and a member of one of Virginia's first families, was acquitted in a jury here tonight on a charge of murder in connection with the killing of his former stepdaughter, Mrs. Ethelma Ham Richardson, a pretty divorcee, who was shot to death at the Pollard home in the fashionable residential section of this city the night of December 31, last.

The verdict was reported at 5:15 o'clock, after the jury had deliberated for more than four hours. A hush fell over the crowd which filled the courtroom as the jury filed in and reported to Judge David C. Richardson that they had agreed. The defendant sat with his counsel, his eyes fixed upon the twelve men in the jury box. Sobs shook his body as the clerk of the court read the words which meant liberty. When the verdict was nipped in the bud.

To Die for Ruhr Murder

Ford Car, Two Men and Twenty Gallons In Haul

Police Officers W. T. Kessler and P. G. Towell this morning captured a Ford touring car containing 20 gallons of corn whisky and placed under arrest. E. Douglas Fathring and Fred M. Queen, the haulers, were arrested at a distance on the other side of New Design. It is usually the officers who block the road to capture a suspected bootlegger, but this time it was the run runners themselves who blocked the road but why they did so is not exactly known. Since the liquor was captured in the county, it is probable that the men will be turned over to the Chatham authorities.

Officer Towell was standing on North Main street about 8 o'clock this morning. A Ford car passed and he noticed that it bore no license tag on the front. It dawned upon him that it was Queen car for the car had been making a temporary breakdown prior to this time. President Harding is still described as 'being under the weather' and that he is still not seen. The telephone Chatham to look out for the machine. It was but short time before they were again on the trail of the Ford car. At a point on the other side of New Design the Ford car passed the officers and to the surprise of the officers it was the machine they were after. A chase then followed. The officers attempted to run up alongside the Ford car and the horn was blown. The Ford pulled to the right side of the road as if to let them pass but instead of giving them time to get beside the machine the Ford cut diagonally across an embankment. This ended the chase although the men did start to run but a shout of half on the part of the officers, prevented them from doing so.

The whisky was then seized and the two men brought to the police station. The Ford car was later taken charge of. The whisky was in four five-gallon cans. Just how the officers managed to be in front of the liquor car is not known. The police were under the impression all the time that the men by the time they had repaired their machine had a safe margin on them. It is thought they turned off into a side road for some purpose and the officers passed just before they emerged.

Rev. Mr. Parker To
Decide Tomorrow

Rev. C. T. D. Parker pastor of Moffett Memorial church who has been asked to accept the pastorate of Franklin Street church, has accepted the call of the Baptist church in Washington, N. C., will announce his decision to the members of his congregation tomorrow morning. Just what he intends to do is unknown and the minister preferred not to outline his decision prior to notifying the members of his flock.

Persons prominently identified with the church and the pastor who were questioned this morning said that while they expected an announcement tomorrow they did not know what decision had been reached and that Rev. Parker had not made known his plan to them.

The congregation has renewed its urge that he remain in the form of a set of resolutions endorsing his services here.

Score of Bootleg Murders Linked To Pogus Money

Committee Will See Sec. Hughes In Coming Week

Sanguinary Warfare Begun
With Killing of Joe Pepi
Is Charged to Revenge.

NEW YORK, Feb. 23—Ramifications of the most powerful counter-plot in American crime, which Secret Service agents were confident they had smashed with the arraignment Wednesday of twenty-three alleged leaders, pointed yesterday to connection with a score of bootleg murders committed here in the last two years and which hitherto have been treated as unsolvable.

The trail, according to the police, cooperating with the Federal men, starts from a coffee house at No. 365 Broadway street. This cafe is said by the detectives to have been the headquarters of the counterfeiting conspiracy, and its owner, John De Rosa, is under \$5,000 bond as one of the ringleaders.

In this cafe, known as Cioco di Savoia, Joseph Viscera, known as Joe Pepi, undisputed leader of Harlem's Little Italy, was shot down on the above mentioned date, and in the fight with his killer stood Louis Ranzo, an innocent bystander.

Bodguards Tailed Him.

Visera, said to have been worth at least \$50,000, always had with him two bodyguards, one to precede the other to follow him. On the day of the shooting they "double-crossed" him, and he did not hear his crossed

bullet wound in his back.

This murder resulted in a war, always heretofore ascribed merely to bootleggers, which resulted in a score of killings. Among these was the slaying of Vincent Terranova or Morris, nephew of Ignazio Lupo, known as "Lupo the Wolf," May 8, 1922 when Terranova was killed, a girl, a woman and four men were shot as the result of his death.

The theory advanced yesterday for the first time is that the shooting at the queen by the counterfeitors to the bootleggers who, with nacot, suggested the plan, the voluntary means of circulating the bogus money caused several, if not all, of these deaths. The investigators are convinced that Viscera's slaying was thus caused.

Masked Bandits Get \$10,000 In Petersburg Robbery

Two Negresses Held By Police On Robbery Charges

Six Men Overcome Watch-
man, Break Into Vault
and Escape With Pay En-
velopes.

(By The Associated Press)
PETERSBURG, Va., Feb. 24—Six masked bandits forced entrance into the Ward Trung and Dog factory today, bound and gagged the watchman, broke open the vault and escaped with \$10,000. The money was in small envelopes ready to be paid employees at the factory. The robbers, officials believe, entered the building by using a key. Night Watchman Rutt told the police that several men jumped on him from behind and he passed a pile of trunks and bound and gagged him. Rutt said four men watched him while two others made a round of the building and prised open the safe.

At noon Rutt, partially by a wrench were found in the office. The watchman had succeeded in freeing himself at 3 a. m. when he called the police. He said the building was too dark for him to get a description of the bandits.

Caught In Blizzard,
Baby Still Lives

(By The Associated Press)
WASHINGTON, D. C., Feb. 24—A victim of the recent blizzard John P. Wolfe, Richland county farmer, aged 31, was buried at Blankenship today, while in a hospital here. His widow, who was with him in the storm underwent amputation of both hands and feet.

The family was caught in a blizzard and lost their home, being found 45 hours without 50 yards of the house. The father, found standing in the storm to shield his wife and children, huddled in the sled. He had several days though his arms and legs were frozen solid. The son, aged 7, had his feet slightly frozen, but he quickly recovered. The baby, when found, under the ice-crusted blanket, was nestled in her mother's arms, unharmed, shielded by the hands that today were amputated.

The police are also continuing their investigation of the series of burglaries which occurred in the city on Thursday night sometime, two residences and three stores having been broken into and robbed. An account of the robberies appears elsewhere in this paper. So far no clue has been learned in any of the cases.

Diamond Salesman
Reports Robbery

(By The Associated Press)
CHICAGO, Ill., Feb. 24—Henry Chart, New York diamond salesman, who gave his address as 57 Nassau street, today reported to the police that he had been robbed by two armed men in a downtown building.

UNAWARE HUSBAND IS DEAD BY CHEERFUL LETTER PACT

ASHLAND, O., Feb. 23—Dear, addressed to him, in which Mrs. Brown implored him to "forget that foolish promise" as she was sick with any cold.

Next week's weather

(Special to The Bee)

RICHMOND, Va., Feb. 24—Taxis will be considerably cloudiness during the week with occasional rains on snow, the temperature will be normal.

"All candidates for membership on the police force in addition to the physical examination requires a small physical examination, which will be held at a written medical examination.

The police commission which will elect the several officers is composed of Mayor Price, W. H. McCarl, E. G. Towell, E. L. Edwards, Sergeant Martin, one of the two who have filed their applications with the chief of police, and Fred G. Tolson, a member of the New York City police force.

The list of officers drawn up by the chief whose terms are about to expire includes the names of

Chief of Police James R. Bell, Sergeant J. L. Edwards, Sergeant J. H. Martin, Police Detectives J. N. Campbell, and J. L. Lewis and Patrolmen C. A. Collier, O. S. Martin, J. B. W. T. Kessler, O. W. Bates, R. Adams, H. E. Dameron, H. A. Peacock, O. T. Scott, E. G. Towell, E. L. Edwards, Chief of Police Bell said his son that he was not sure if he was the entire list and that he could have to go more carefully into the records before he could give an offical and final list of those officers whose re-election comes up.

The re-election rules and regulations, covering admissions to the force, prove as follows:

"All candidates for membership on the police force in addition to the physical examination requires a small physical examination, which will be held at a written medical examination.

SALES NEARING 27 MILLION ON DANVILLE FLOORS

With three weeks remaining before the auction sales in Danville come to a close for the season it is hardly likely that the thirty million pound figure will be reached. If that figure is to be attained over a million pounds will have to be sold every week between now and March 10th the date of the market's closing.

The total sales for the season total are 6,736,233 pounds, sold for \$15,971,50, average \$31.40.

The sales for the week closing Thursday totalled \$47,884 pounds which brought \$136,332.13 or an average price of \$2.75.

Most of the leaf now being marketed is of inferior quality and indicates that farmers are getting to the end of their supply. There is in evidence, however, some good tobacco and the prices paid for such desirable types are well sustained.

The annual meeting of the Danville Tobacco Association will be held on the second Monday in April.

BLACK TROOPS NOT SENT TO THE RUHR

(By the Associated Press) PARIS, Feb. 23.—Official denial was made tonight that any black troops of the seventh French colonial regiment lately have been sent to serve in the Ruhr.

—Miss Mary O'Brien has returned to the city after a pleasant visit to Norfolk of three weeks duration.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 15c and 30c.

MRS. LINDQUIST TELLS WOMEN OF MIDDLE AGE

What Lydia E. Pinkham's Vegetable Compound Did for Her

Kansas City, Mo.—"I was left in a very serious condition after childbirth and no one thought I could ever be any better. Then came the 'Change of Life' and I was not prepared for what I had to suffer. I had to go to bed at times to be perfectly quiet as I could not even stoop down to pick anything from the floor. I did not suffer any pain, but I was decidedly nervous and could not sleep. For nearly two years I was this way, and the doctor was frank enough to tell me that he could do no more for me. Shortly after this I happened to see in a newspaper an advertisement of Lydia E. Pinkham's Vegetable Compound. In a few days the medicine was in the house and I had begun its use and I took it regularly until I was well. I recommend the Vegetable Compound to others when I have the opportunity."—Mrs. MAY LINDQUIST, 2311 Independence Ave., Kansas City, Mo.

Rotarians Meet In Petersburg

The Rotary Club is receiving reports from Petersburg regarding the arrangements for the entertainment of the Conference of the 37th District when it convenes in that city on the 16th of March that indicate that Petersburg Rotarians are overlooking nothing that would add to the entertainment or comfort of the visiting brethren and also the Rotary Annis who may accompany their men-folk. The Petersburg club has perfected a complete organization of its members to carry out entertainment plans as well as to form them, and it is announced that everything which can be done before the delegates begin to arrive has been done.

In other words, Petersburg Rotary is "all set" for the Conference.

The official program of the Conference has not yet been sent out, but some of the features are known. For instance, the Government has agreed to send a squadron of airplanes up from Langley Field to welcome Ray Havens of Kansas City, President of Rotary International, and Roger Moore, District Governor, when they attend the Conference.

Ray will attend but five District Conferences this year and has selected the 37th District as one of the five, which, of course, is an honor fully appreciated.

All the civic associations of Petersburg have been and will continue to co-operate in the work of arranging for the entertainment of the Conference.

The Chamber of Commerce, composed of over 1,000 members, has seized the opportunity months ago to take a hand in this work, and its officers and members have rendered yeoman service. The Kiwanis Club has taken as much interest in the big meet as though it were a conference of the Kiwanians that was coming. The Chamber of Commerce, Y. M. C. A. building, Elks' Home, and the Petersburg Country Club will be thrown open to visiting Rotarians. Petersburg Rotarians are insisting that visiting Rotarians bring their sticks with them and sample the Petersburg links which are said to be among the finest in the South.

The Petersburg Club has informed the local club that a rate of a fare and a half for the round trip to Petersburg and return has been secured from the roads. Petersburg is reached by the Norfolk and Western, the Seaboard, and the Atlantic Coast Line. Excellent parking arrangements have been made.

—Petersburg says that visitors who may prefer sleeping in the cars which take them to Petersburg may do so instead of staying at a hotel.

The Cockade City, as Petersburg is called, will be decorated most elaborately by the time visitors begin arriving for the Conference. Practically every man on the principal streets has signed his intention of decorating the front of his business home for the Conference and the committee on decorating the front of his business home for the Conference and the committee on

decorations has secured the services of an expert to superintend this work with a view to making it harmonious, impressive, and beautiful.

Although Petersburg is a modern progressive city of 40,000 people, historically it probably is the most interesting in the entire country. For more than a hundred years it has been the city of two of our citizens to build and equip a public library and has been exposed to Miss Bland Schoolfield and Mr. J. E. Perkins our appreciation and thanks for this fine contribution to the cultural and intellectual spirit of our community, and express also the conviction that our City Council should promptly and unanimously accept the conditions embodied in the proposed offer and provide the required maintenance fund therefor.

CARE FREE CLUB HAS PARTY

The birthday of George Washington was never more happily celebrated than last night when the members of the Care Free Club, with their friends, met at the Welfare Building in Schoolhouse Lane, C. O. Bolen and Miss Brakeman as hostesses.

The always attractive social room was made especially inviting with perfume decorations of flowers, ferns and flags. Large pictures of George and Martha Washington were given a conspicuous place in the room and were appropriately hung with the national colors. Lighted candles and an open fire added to the charm of the scene.

The program was most enjoyable, a patriotic note was struck in the beginning when every one present joined in singing the stirring words of "The Star-Spangled Banner." Then Miss Elizabeth Pennington, the pianist, Richard Penn with his violin delighted every one with their lovely music. Mrs. Harry Woodring gave some very pleasing readings and Mrs. Swartwout and Miss Daisy Smith and Miss Rachel Schwab contributed greatly to the musical program. A quartet composed of Messrs. Hall, Browder, Bonzai, Phillips and Lillard generously sang a number of songs in a most entertaining manner, capturing the applause of all.

The grand march and virginia reel and other games were thoroughly enjoyed and made the "good time" spirit catching and it "took" with the whole party.

The refreshments of tutti-frutti ice cream, home made cookies, punch and candies were made more attractive by the use of napkins with cherries decorations and favors of tiny silk flags.

The hostesses were costumed in colonial style and Mrs. Bolen as Martha with Miss Brakeman as George and Miss Ruth Clark as a colonial belle greeted the guests with true hospitality.

The club members and guests present left at a late hour having had the time of their lives.

STREET CAR COMPANY ORDERS EQUIPMENT

The Danville Traction and Power Company has within the past few days placed orders for new equipment of a total value of \$75,173.54, this including five double truck street cars of the pay-as-you-enter type and slightly larger than the two biggest now in use, also a rotary converter which is to be housed in the city power plant as soon as a small addition to the building has been built. Delivery of the converter will permit its installation by the first of July when the city current will be used in operating the local street car system. The new street cars will be shipped before that date. The company is now making arrangements which will be used in replacing worn out wooden poles now used for the support of trolley and feeder wires. These are being made at the car barn.

Keep Facial Muscles Strong!

BY MARIAN HALE
(Special to The Bee)

WATCH your muscles! When they show signs of relaxing, your youthful appearance is gone!

In every face there are three danger zones according to Rose Laird, famous New York beauty specialist. Within these zones the muscles are weakest to say.

To forestall this tendency, Miss Laird says:

"First knead a cleansing cream of oil into the skin and pores; then wipe the face with a towel.

Start the Massage.

"Next dip the fingers in a good skin food, start at the middle of the chin and massage, upward and outward, toward the middle of the ears, with both hands, as outlined on the diagram—number one.

"Then start at the corners of the mouth—number two—and massage upward toward the nose, at the nostrils.

"Continue the massage across the cheeks, upward to the top of the ears—three.

Around the Eyes.

"Now begin at the eyes—four. Start at the corners, near the nose, and massage around the eyes very gently, in complete circles. First, a half circle over the eye just under the brow, and continue the movement under the eye. Be careful not to touch the eyeball.

"With the forehead—five—start in the center and massage upward and outward toward the temples.

"At the corners of the eyes, again massage upward and outward toward the temples—six.

"Use the thumb and forefinger to massage from the nostrils up toward the bridge of the nose—seven."

"For the throat, start in the center, just under the chin, and with long, sweeping, circular movements, massage to the lower part of the neck—eight. Then continue with an upward, circular stroke toward the

DIAGRAM SHOWING HOW TO MASSAGE THE FACE, ACCORDING ROSE LAIRD'S RULES.

under side of the ears—nine.

Ten Minutes Daily.

Every beauty seeker should make this program a part of each night's routine. In the morning the face should be gone over again with

cleansing cream and an astringent should be applied, followed by an aloe rub.

"Ten minutes daily devoted to this muscles building and you will control your own wrinkles."

Herman Screece.

Dialogue, "I Would Tell," By five boys.

Recitation, "I Would Be Like Washington," By Oscar Winn.

"The Red, White, and Blue," By four girls.

Song, "Columbia, The Gem of The Ocean," By school.

Recitation, "The Little Red Stamp," By Norman Harris.

Recitation, "A Washington Euros-It," By Pattie Bradner.

"Tis Splendid to Live So Grandly," By Lois Dodd.

Song, "Star Spangled Banner," By school.

Misses Lula Padgett and Kate Atkinson are spending the week-end at their respective homes.

G. C. Shuggart, the principal of Unity School is spending the week-end with his sister Mrs. Ried of Danville.

The program which has been in progress at the faculty of Unity School will be staged Saturday, March 3, the proceeds to go for the piano. It is hoped that there will be a large crowd present.

Mr. Luke Blair has gone to Lynchburg for the week-end.

The weather has been very favorable, and the farmers are busy preparing plant land.

John R. Fowler, who on yesterday underwent an operation at the General hospital for the removal of his tonsils, is reported getting along nicely.

Clyde M. Barker, who was operated on yesterday at the General hospital for tonsillitis, is getting along nicely.

No Clue To Series Of Robberies In City Thursday

After a full day's investigation of a series of robberies which occurred in various parts of the city during Thursday night, police officers conducting the probe had not gained a single clue after last night. Five different burglaries and two violent crimes and two general merchandise stores and one wholesale grocery concern, were discovered yesterday morning by the citizens and store proprietors. The police department was notified in each case and an immediate investigation began but the efforts of the officers were fruitless after a full day trying to gain some clue. The stores entered were Turner Brothers, on Lynn street, E. W. Clarke's store, on Ridge street, E. J. Wyatt's store, on Ridge street, and D. Kushner's residence on Jefferson street and H. D. Purdie's residence on Jefferson street. No valuable articles or large amount of goods were taken from any of the places.

An Elgin watch and other jewelry of less value were found missing from the Kushner residence yesterday morning, after it was discovered that a side window had been entered.

Turner Brothers store was broken into from the rear and a lot of chickens taken, but just how many, it could not be stated yesterday.

Entrance to Clarke's store on Ridge street was made by breaking into the front door. A quantity of chewing gum, candy, cigars, etc., were found missing when the break-in was discovered yesterday morning.

H. D. Purdie discovered his overcoat and one pair of trousers missing yesterday morning when he went to look for them. Investigation revealed that the house had been broken into at the rear sometime during the night.

From E. J. Wyatt's store, on Ridge street, was taken a small amount of money and a lot of candy, cigarettes, cigars, etc. Entrance was made through the front door.

Although as yet they have no clue the police are continuing their investigations.

WIGGS-BRADY

A quiet marriage of interest to the friends of the contracting parties was celebrated Thursday night last at eight o'clock when Mrs. Eva Brady became the bride of James T. Wiggs. The ceremony was performed at the residence of Rev. J. Clyde Holland on North Main street in the presence of a few intimate friends of the couple.

The bride has been a resident of this city for several years and enjoys the admiration of her friends. The groom is a young merchant and soldier, a son of his friends. Among those who witnessed the ceremony were Mr. and Mrs. Herbert Thaxton, Mr. and Mrs. Wiggs will make their home in this city.

HONOR ROLL OF RISON PARK SCHOOL

Grade 4 B, Miss Robertson. James Craft, Gray Graveley, Ernest Dobson, Frederick Sager, Kathleen Bass, Carlie Buck, Charlotte Corbin, Verna Francesco, Margaret Garnett, Gladys Masenow, Mary McDaniel, Lois Pruitt, Mary Slaughter, Virginia Smith.

Improve your skin by daily use of Cuticura Soap, Ointment and Talcum. Sample Each Free by Mail. Address: Cuticura Soap and Ointment Co., 1000 Broadway, New York. Send 25¢ for Ointment & 25¢ for Talcum. Cuticura Soap leaves without stain.

Mustrole is easy to apply and it does not blister like the old-fashioned mustard plaster.

Mustrole is a clean, white ointment made with oil of mustard. Simply massage it in gently with the finger tips. You will be delighted to see how quickly it brings relief.

Get Mustrole at your drug store. 35¢ & 65¢ jars & tubes; hospital size, 25¢.

BETTER THAN A MUSTARD PLASTER

DODGE BROTHERS BUSINESS SEDAN

Dodge Brothers, with equal aptness, could have named it the Family Sedan.

In the first place, it is big and roomy—a five-passenger car that will really seat five adults in comfort. There is no space wasted on superfluous adornments. Every inch of body and chassis is put to actual use.

There are no delicate cloth furnishings to be soiled by the children. The seats are upholstered in durable and attractive blue Spanish leather.

There is no sensitive varnish to be easily scratched or finger-spotted. The body is steel-built—a new principle in Sedan design—making it possible to finish the exterior in Dodge Brothers oven-baked enamel, the most durable finish known.

The rear seat furnishings come out—instantly converting the rear part into a spacious carrying compartment—handy for carrying trunks, boxes and household luggage of all sorts.

Children can romp and play to their hearts' content in this car, and when cleaning time comes, you can turn the hose on it—inside and out.

The Price Is \$1,315.00 delivered

Leaders Agree on Immediate Vote On Shipping Bill

Final Disposal of Measure Conceded to Be Dead Will Be Made Today or Monday.

Hudson Maxim Has Plan To Kill Out Boll Weevil

(By The Associated Press) BIRMINGHAM, Ala., Feb. 24.—Final disposal of the administration shipping bill generally conceded to be dead by vote today or Monday was agreed on today by Republican and Democratic leaders in the Senate. Proponents as well as opponents of the bill which has been blocked for five days by a filibuster agreed that the pending motion to take up the bill on which the final test will come will be defeated. Senator Jones, Republican, who has been in charge of the bill said he proposed in such an event to make no further effort in its behalf.

Fellowship of Prayer

Daily Lenten Bible reading and meditation prepared for Commission on Evangelism of Federal Council of Churches.

SATURDAY

The Mighty Servant

"Who then is this, that even the wind and the sea obey him?" Mark 4:41.

Read Mark 4:38-41.

"If we could see the universe as it is, we should undoubtedly see that everything which God did was done according to law."

MINISTRATION. Jesus drew upon the great resources of his power to serve the needs of others. The emphasis was not on the miracle, but upon the spirit in service.

"I know."

One thing is not yet learned:

The night and day alike in view,

The world's unrest keeps on.

One lesson is learned, patient, true:

PRAYER: O God, by whom the meek are guided in judgment, and the light is given in darkness for the goodly grant us, in all our journeys, understanding, the grace to use what we must have to do, that the spirit of wisdom may be with us from all

false choices, and that in thy light we may see our way in the straits of pain and of suffering, through Jesus Christ our Lord. Amen.

SATURDAY, FEBRUARY 24, 1923

SOMETHING FOR 0.

A scheme for getting rich quickly occurred to Rafael Gonzales, of Orizaba, Mexico. He wrote a polite and business-like letter to American newspapers, ordering 50 daily and 75 Sunday copies to be sent regularly.

The fishing was good for Gonzales promised to remit \$1.00 upon receipt of the first shipment of papers. The idea of building up big circulation in Mexico naturally appealed to ambitious put-shers. Maybe some of them wondered how many Mexicans could read at all, let alone read English print. The postoffice inspectors in Washington, D. C., have issued a fraud order against Gonzales, barring him from the mails.

But Gonzales apparently got what he was after, for the official announcement from the inspectors says: "Senor Gonzales has thus obtained large quantities of American newspapers for which he paid nothing and has doubtless realized no small revenue through their sales as wrapping paper."

Recently there has been a regular epidemic of frauds worked on Americans by swindlers in foreign countries using our mails. In the particular case of Gonzales, it occurs to you that a man of his ingenuity was wasting his time on a waste paper swindle. The same cleverness, applied to an honest and useful proposition, would make him increasingly rich.

The criminal mind, however, seems to have a peculiar warp that makes the getting of wealth by crooked means seem the easiest way. On the law of averages, it's easier to get rich honestly than dishonestly.

You can picture Gonzales sitting around for months or even years, rolling shaggy cigarettes and running his resourceful brain high-speed until he figured out his scheme. It is almost astounding, the extent to which the human brain will resort to get something for nothing. In other words, to "get by" without honest, useful endeavor.

It is true of swindlers. And it is true of most of us, especially the swindlers' victims. Wasting so much time, "just to get something for nothing" is a bad idea, a truly neophyte poor. There's not enough time left for really productive work. Day-dreams, unless of course I'm reasonably bound, have the same effect as chloroform.

AUTOMOBILE NEWS

GENERAL H. E. ELY MUST EXPLAIN RECENT SPEECH

(By The Associated Press) WASHINGTON, Feb. 23.—Action upon the nomination of Brigadier General Hanson E. Ely, now commandant at Fort Leavenworth, Kansas, to be a major general was deferred today by the Senate military affairs committee pending inquiry into charges that General Ely in a speech last month at Kansas City reflected upon the thirty-sixth (Texas and Oklahoma National) division.

Senator Sheppard, Democrat, Tex., presented a number of telegrams from division officers protesting against the speech and the committee ordered a telegram of inquiry addressed to General Ely, asking reply it was decided to take no action.

Senator Glass, Democrat, Virginia, through Senator Wickoff, Tennessee, a Democratic member of the committee, recently asked that action on the Ely nomination be held up pending inquiry into the Cronkhite case as General Ely was nominated to the vacancy caused by the recent enforced retirement of Major General Adelbert Cronkhite. This request, however, was not pressed today.

NINE GERMANS HAVE BEEN KILLED BY THE FRENCH

(By The Associated Press) ESSEN, Feb. 23.—Nine Germans have been shot dead, including one child and 13 seriously wounded, by the military forces of occupation since they entered the town in January according to figures compiled by the German authorities here.

Two hundred and seventy persons whose names are known have been arrested; 97 arrested and then deported, 355 deported immediately without other formality; and 16 officials removed from office according to this statement.

More than 100 other persons whose names are unknown have been reported arrested; it is added.

WOMAN CHARGED WITH STEALING MONEY IN PURSE

REEDSVILLE, N. C. Feb. 23.—Mrs Margaret O. Warren, a handsome and neatly dressed woman, in her twenties, in recorder's court yesterday morning was bound over to Superior court to answer the charge of larceny of a pocketbook on last Saturday from Mrs. R. L. Stone, proprietor of the "Ladies' Store."

When the hearing was called before Judge Humphreys the court room was crowded with spectators; perhaps a third of the number being women.

Mrs. R. L. Stone was the first witness called. She stated that on last Saturday Mrs. Warren came to visit to her store, bringing her little son along to meet Mrs. Stone who was preparing to remove to Stoenville. According to Mrs. Stone's evidence, the store was open that day to receive collections only, there were no customers, and very few people visited the place during the day. She missed her purse at about 5 o'clock and was positive that only Mrs. Warren was near the safe when the purse was left.

In the purse was \$5 in silver, a \$5 gold piece, a watch, a silver pencil and several other articles. Mrs. Stone said that after she missed her pocket book she went in search of Mrs. Warren. In company with her son and L. E. Geoghegan she went to the home of Rev. W. P. Ward where Mrs. Warren resides. Not finding her there they proceeded to Mrs. King's, mother of Mrs. Warren where Mrs. Stone asked her if she had not taken the lost article through mistake. Mrs. Warren denied any knowledge of the purse. Mrs. Stone then went to police headquarters to report her loss.

E. P. Geoghegan stated that at Mrs. Stone's request he had assisted her in making a search for the lost articles. The 5 and 10c store he found the empty purse at the lace counter and ascertained that Mrs. Warren had visited that place and made some purchases at that counter.

The witness said that a little later he and Mrs. Stone met Mrs. Warren on the street and asked her about her visit to the 5 and 10c store, and asked her to accompany them to the police station. This request was refused by the defendant.

Mrs. J. F. Claybrook and Mrs. H. G. Broome testified in behalf of Mrs. Stone, but Mrs. Stone was perhaps the most material witness called. In the toilet room of his store on the second floor a few minutes after Mrs. Warren had visited the place he had found the empty watch case which was among Mrs. Stone's missing articles. He said Mrs. Stone had described the case before he turned it over to her.

At the conclusion of Mr. Bell's testimony Solicitor Sharp announced that the state rested.

According to Mr. Mayberry, appearance for the accused woman claimed that the defense would offer no testimony.

Judge Humphreys informed counsel that as probable cause had been shown and the case was not within his jurisdiction, arguments by them was unnecessary. The Judge fixed Mrs. Warren's bond at \$250 which was promptly arranged. The case will be called at a later term of Rockingham Superior court.

KLANSMEN MAY SERVE ON JURY

(By The Associated Press) NEW ORLEANS, Feb. 23.—Attorney General A. V. Coco, will not object to Klansmen serving on the House Parish grand jury which is to consider the evidence taken at the recent opening hearing into hooded mob outrages, but he expects the Klansmen to disregard their Klan affiliations and return indictments against persons he will name at the grand jury hearing early in March.

The attorney general made his position clear today in a statement which followed a lengthy conference with members of Morehouse Parish during his visit there last week.

HINTS FOR THE MOTORIST

by ALBERT L. CLOUGH
Editor Motor Service Bureau Review of Reviews

Copyright, 1923, by the International Syndicate

Service Suggestions

Servicing Motorcars Is Now A Highly Specialized Business

IF THE COMPANY that built your car suggests, in their instruction book or elsewhere, that you register with them your name, address, and car number, it is a good idea to comply, especially if your car is of a new model. In case they maintain an inspection service, it is also good to investigate it, for you may find it profitable to make use of it. The guarantee borne by cars occasionally proves of value to an owner and it should be read over and thoroughly understood. Full information concerning your car and its operation and repair should be obtainable, without charge, from the factory or any of its authorized service stations. In writing the factory for information or repair parts, always give your car's serial number, engine number and year of manufacture. It usually pays to order parts from a service station rather than from the factory direct and on the whole, it will be found more satisfactory to have repairs made at a service station of its particular make than at a general repair shop, especially if the required work is on parts which are at all out of the ordinary. Remember that, nearly all the electrical equipment, the carburetor, vacuum tank, the speedometer, tires, rims and some other parts were not manufactured by the car maker, but by concerns which take their own responsibility for their product. Most of them maintain service stations and information, inspection and repairs on these parts are usually more satisfactorily obtained from them than from the car's service station. Some battery manufacturers ask customers to register their batteries with the company's nearest service station and render a limited free service in the way of inspection, which is of considerable value. As to the electrical equipment, it is too much to expect that a general repair shop can handle difficulties which arise with it so well as can a specialized electrical service station, and the same thing is true as to carburetors, vacuum tanks and other parts of the equipment.

UNDERDOED CYLINDERS

M. A. H. writes: When I had my car looked over last time, they found that the piston rings were so badly worn that new ones had to be fitted, although they had not seen more than 6,000 miles of service. They tell me too that the cylinders are worn quite a little. Can this be because there is not enough oil on the cylinder walls? Is there any way of finding out about this?

Answer: Insufficient cylinder lubrication could readily account for this rapid wear. You can remove the cylinder head just after you have run the car, and pass your finger over the cylinder walls to see if there is an unbroken film of oil over their entire surface. If not it will look as if they were derotted. In some engines the finger can be inserted through the spark plug hole and run over a little of the wall surface. If you wish to furnish a little more cylinder lubrication, you can mix oil with your gasoline in the proportion of one part to 25 or 30. Increasing the oil pressure, in a force feed oiling system, should give more cylinder lubrication. We suppose you renew your engine oil frequently.

AS TO OIL PUMPING

Q. S. B. writes: Please answer the following questions concerning oil pumping in respect to which my engine has given considerable trouble: (1) Will an extra hot spark stop missing from this cause? (2) Can stuck rings be loosened up without taking an engine down? (3) Will the use of motor graphite reduce it? (4) Will spark interspacers prevent the missing of any plugs? (5) What other remedies can you suggest?

Answer: (1) No. Certainly not in extreme cases. (2) Soaking them thoroughly with kerosene, introduced through the spark plug holes, sometimes frees them by removing the burnt oil, with which they are gummed. (3) It will have an appreciable effect, if the ring-fit is really bad, although it may, in time, improve the tightness of ring fit to nearly a perfect fit. (4) They will cause plugs to spark, which would be completely short-circuited without them. (5) If well fitted rings will not stop oil pumping, reduction of the oil supply to the cylinder walls may do so. Special oil proof rings or bevelled scraper rings, with oil-return holes drilled through the piston walls in the ring grooves sometimes prove effective.

Questions of general interest to the motorist will be answered by Mr. Clough in this column, space permitting. If an immediate answer is desired, enclose self-addressed, stamped envelope.

FATHER-HUSBAND TRIANGLE LEADS TO TWO DEATHS

By GENE COHN
(Special to The Bee)

SAN FRANCISCO, Feb. 24.—The face of a girl that mirrored the likeness of her dead mother.

An "dying love triangle," completely void of all the usual triangular situations, as sordid sex and illicit companionships.

These are the elements of a strange tragedy in which Madeline Wrublesky, aged 16, finds herself the innocent cause.

Her husband, Alex Wrublesky, is dead—killed by his father, Harry L. Johnson, 45, who is dying—shot down by the husband.

And Madeline faces the world alone, a mere child in years and mind.

When, five years ago, Madeline's mother died, the father found much compensation in the fact that the child bore a striking resemblance to the dead woman.

As Madeline grew older the likeness grew stronger.

"It is almost as if she were in the house," Johnson would say to the girl. He could not bear to think of the day when this "mirror" girl seemed to forget the years back to his happy courtship days.

Her father died last Saturday.

He arranged a meeting with the father. There were bitter words and then there shot.

Secretly she feared the consequences.

Both men loved her with an "ugly love." This she well knew.

Johnson took steps to have the man released. The girl was under legal age, he held.

DORMAN'S CAMERA STORY OF RUHR

AROUSING THE IRE OF NEUTRALS

Close watch is being kept by the new French customs officials on all Rhine traffic to prevent shipment of contraband into Germany. This photo shows a Dutch captain disgustedly watching French officers searching his river boat at Dusseldorf.

"YOU MAY TELL AMERICA THAT..."

Photo shows prominent Germans in the Ruhr presenting the German side to American newspapermen. Standing on the left is Dr. Grutzen, of the civilian government in Dusseldorf. Seated on the right is Dr. Neuer, acting mayor of Essen.

UNSCRAMBLING THE EGGS

Lines of communication have been thrown into a hopeless tangle by the strike of German workers in the Ruhr. Here is a French police acting as switchman in Becklinghausen railroad yards for one of the infrequent trains.

COLLEGE SENDS SIXTEEN MEN TO CONVENTION

RANDOLPH-MACON COLLEGE, ASHLAND, Va., Feb. 23.—Randolph-Macon college has sent a delegation of sixteen men to the Student Volunteer Convention at East Radford, Virginia.

The delegation includes on the professors, or seven members of the Student Volunteer Board of the college, the Y. M. C. A. president and various other representatives from the various college classes.

The president of the convention who has been the executive officer of

WHERE CIVILIAN RIOT TOOK PLACE

Here is a view of a group of French police quartered in the dining room of a railroad station, after the riot in which Germans were driven from the dining room by French officers armed with riding whips.

REPORTS ABOUT SCHWAB DENIED

By Associated Press

WASHINGTON, Feb. 23.—Reports that Charles M. Schwab, the steel magnate, is surveying European economic conditions as an official observer for the Washington government were denied today at the White House, but it was added that Mr. Schwab, naturally, could be expected

to be helpful in restoring world's economic.

President Harding is known to have great confidence in the judgment of Mr. Schwab on economic subjects and just before the latter sailed they conferred at the White House.

AMBASSADOR HARVEY IS CONVERTED TO TEA HABIT

London, Feb. 23.—Ambassador Harvey admits he has fallen for the tea habit. He confessed when he returned to London from Washington that he had upset the entire White House cuisine in order to get his five o'clock tea, but he got the tea.

the Student Volunteers of Virginia for the last year, is Herman M. Wormer, a member of this year's graduation class of Randolph-Macon college.

DANCER WRITING LIFE OF FORMER KING CONSTANTINE

ROME, Feb. 23.—Princess Ida Constantine, formerly the wife of King Constantine of Greece, will be in this country. Beyond this officials were not able to say. No way discussed the question of a

Princess who knew Constantine well, was writing his biography.

way to make an interesting report of European affairs when he returns to the United States.

He was to have a book about the possible connection between the Princess who knew Constantine well, and the administration to find a

way to help in restoring world's economic.

President Harding is known to have great confidence in the judgment of Mr. Schwab on economic subjects and just before the latter sailed they conferred at the White House.

"BLUE DEVILS" FORM SPEAR-HEAD OF FRENCH THRUST

Leading the advance of the French military forces into the Ruhr are the famous "Blue Devils" in a lutesque regiments recruited in the Vosges. Here they are shown entering Becklinghausen, the point of France's deepest penetration into the German industrial region.

THE BEE ALWAYS FIRST

Bob Dorman, famous camera correspondent for The Bee, is showing you how the epochal events in Europe are affecting the lives of Tom, Dick and Harry over there. Dorman knows what pictures to take. That's why his fame has been secure ever since his notable work during the Mexican revolutions. Now he's in Europe making pictures especially for the newspaper.

The Bee prides itself on always being set with the news, new pictures, best features and fiction. Watch for Dorman's camera story of the Ruhr in The Bee.

Hated

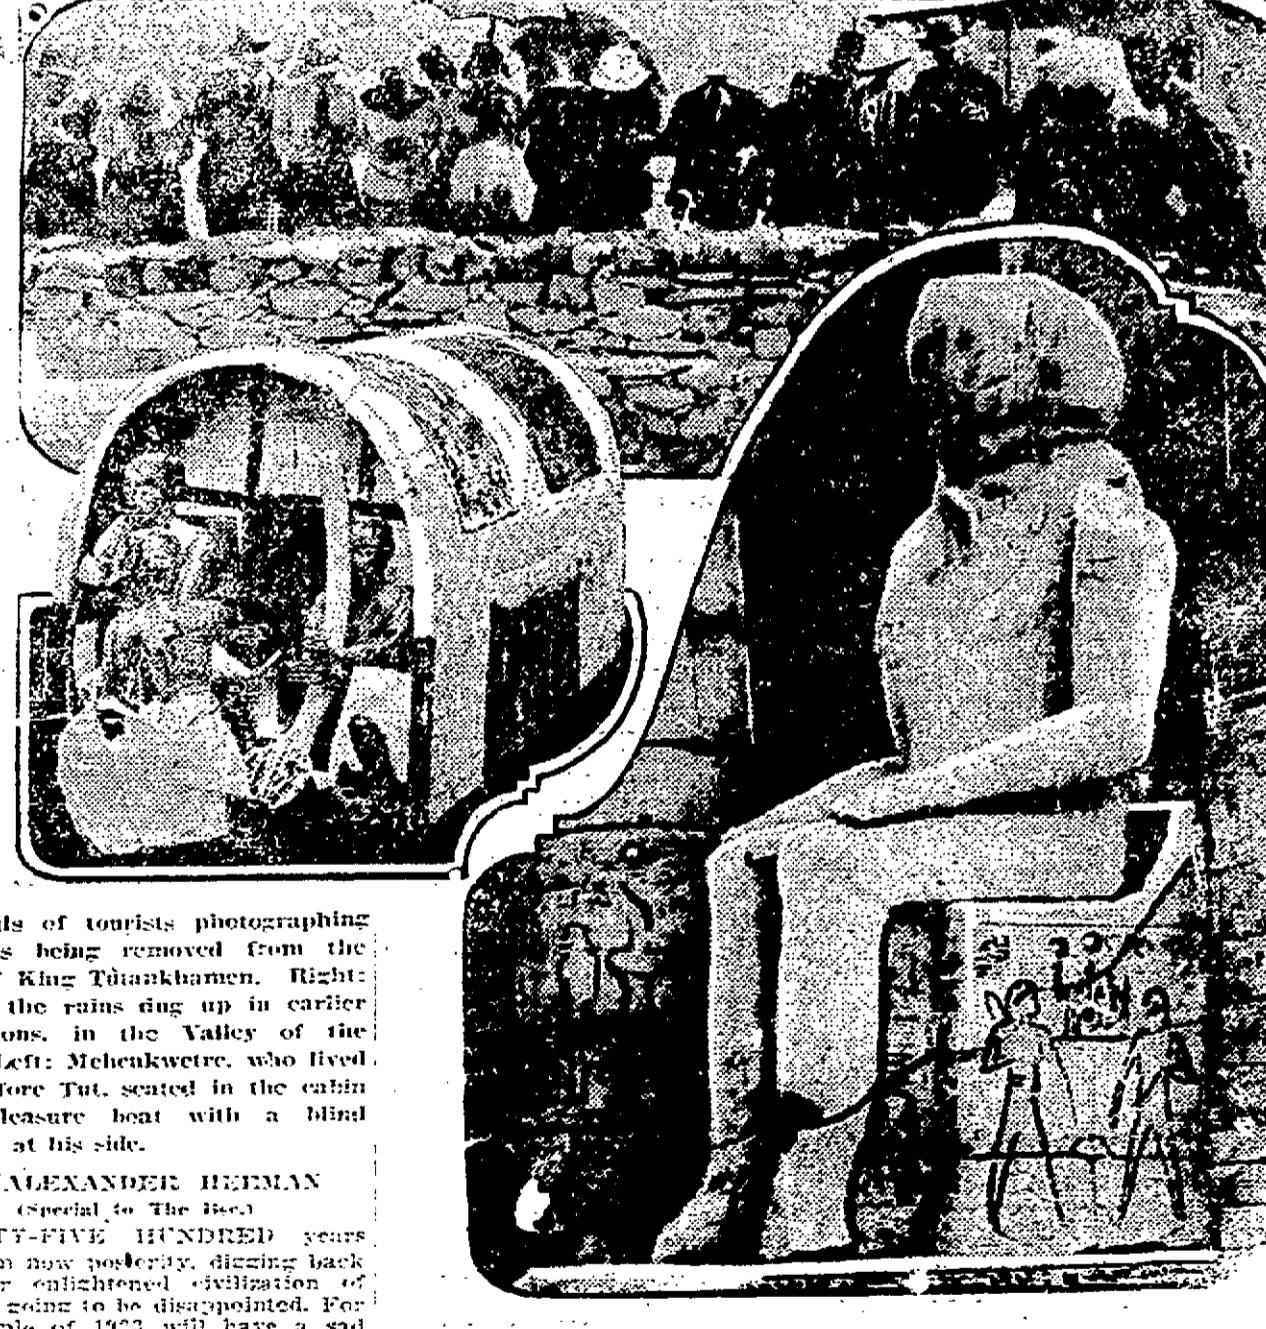

Ire of the Ruhr populace has been directed at General Mangin, commander of the French cavalry in the Ruhr. The riding crops of his officers have contributed to the dangerous attitude of sullen hatred on the part of the populace.

"ALL QUIET ALONG THE RUHR!"

A French cavalry is shown here marching at a rapid gait through the streets of Becklinghausen, Werden and Kettungen.

When They Dig Up People of 1923

Crowds of tourists photographing treasures being removed from the tomb of King Tutankhamen. Right: One of the many dug up in earlier excavations, in the Valley of the Kings. Left: Menehune, who lived long before Tut, seated in the cabin of his pleasure boat with a blind harpist at his side.

BY ALEXANDER HERMAN
Special to The Bee

THIRTY-FIVE HUNDRED years from now posterity, digging back into our enlightened civilization of today is going to be disappointed. For the people of 1923 will have a sad impression on the future generations.

Archaeologists in 3423 A. D. who start digging into our affairs, as we are doing into those of King Tutankhamen, who lived some 3340 years ago, will judge us not by our skyscrapers, radio, modern appliances, all signs of a progressive age, but—

Only by what they find in Green Hill cemetery!

This is the opinion of Ambrose Lansing, acting curator of the Egyptian Department of the Metropolitan Museum of Art, New York, a man who has spent most of his life digging up the past of old Egypt.

"Our buildings, models of architecture, expressions of art, will long have passed into the limbo," he says. "Instead of the splendors of a Tutankhamen, Menehune, of a Persian, we'll be rated by our cemeteries.

Imagine it!

How we will suffer in comparison with our ancients, whose secrets, revealed by men like Lansing and Howard Carter, who spent 33 years excavating for one Pharaoh's tomb, show that there was nothing show about our Egyptian ancestors.

They had breweries, where they made beer without the interference of a yeast. They had boats, hang chunks of meat, and other offerings which Perseus hadn't consumed.

But he didn't hold a candle to Menehune, who was born some 550 years later. He too was a policeman, but he served King Menephtah III as chancellor and steward of the royal palace.

Models Buried With Him.

When he died he wanted to carry on just as he lived. So he had little wooden models made of his house, garden, boats, brewery, granary, favorite girls and servants and

had them all buried with him. If his

antiquities are to be believed, he

probably goes sailing up the rivers

in the other world most every day in a different boat.

Digging there will soon have to

stop for the warm weather is

setting in. It cannot be taken up

again until fall.

"But when the discoveries in the

Valley of the Kings is completed,

a new wealth of riches and information

will be revealed."

But if we want the archaeologists

of 3500 years hence to say nice things

about us, we had better start trim-

ming up our graveyards.

"He even had a special kitchen

heat for his longer cruises, so he

wouldn't be bothered with the strong

smells of cooking," says Mrs. Russell

Jones, assistant to Curator Lansing,

who discovered the remarkable col-

lection between digging in Egypt in

1912.

"And his cows, according to a well-

known packer, would be rated on the

exchange today as 'prime beef'."

The accidental shifting of a rock

led to the discovery of this remark-

able collection. After Frenchmen had

prospected and given up the search,

Lansing and other Americans carried

it on. Just as they were about to

give it up, a worker noticed an end-

less trickling of sand through a crack

between two rocks. He moved them

and there below lay the vast tomb of

Menehune.

"But none of these discoveries,"

says Lansing, "approximate the vast

treasure house now being dug up at

Luxor.

"Tutankhamen's is the first royal

tomb he found intact. Marauders

got to most of the others before

they were noticed by the archaeologists, for the craft of the

archeologist seems to be as ancient as burial

itself."

JOHNNY CORCORAN, SENSATIONAL JOCKEY, TOUTED AS ANOTHER TOD SLOAN

(Special to The Bee.)
NEW ORLEANS, Feb. 24.—Johnny Corcoran, 22-pound jockey, who is still in the apprentice class, is rapidly becoming the sensation of the turf regardless of the fact that he has not been riding the bangtalls long enough to win his spurs.

Four years ago Johnny was the prize-winning catechism student at St. Joseph's school, New Orleans, but he literally slid out of school on a rope and landed on the race track, with the result that he is now riding for Mose Goldblatt and is bound to wind up the season on the New Orleans track. He had won first honors at Latonia during the season recently closed, although he rode his first winning mount, Cho Cho, on September 30, 1922.

One day Johnny, prize catechism student and choir singer, who was a model of deportment, according to his instructors, was being prepared for confirmation. Suddenly the sisters heard a muffled clang of the great bell whose rope runs down through a shaft in the choir loft and saw Johnny climbing down on the rope. As a result he was suspended for two weeks before he was confirmed.

During the two weeks' layoff Johnny went out to the race track and begged for a chance to help groom the horses. He was a valuable little mite with an Irish smile that won to the hearts of the stablemen, and a few days later, in his great delight, he was permitted to gallop some of the more gentle horses. That settled it with Johnny. He went back to school and was confirmed, but quit a few days later. With consent of his widowed mother, who had a brood of six children to care for, he was apprenticed to Al Kirby under a contract which still has two years to run.

Later in 1921 he got his first chance to ride and brought Luck John in fourth place, outside the money, by a whisker. His second mount, J. Ru-

JOHNNY CORCORAN ON CALCUTTA

ius, came in second and Kirby decided by the lad's intelligent handling of the thoroughbred that he was destined to become a great jockey. It was not until 1922 that he got his real chance at regular riding and he made a big cleanup at Latonia this year at the City Park meet, at New Orleans, where he brought 15 horses in first in 32 races and has ridden more than twice that number since. "Look out for Johnny Corcoran," says Mose Goldblatt.

Johnnie is 17 years of age, and though his winnings have not been as large as they otherwise would be were he not under his first coach, he "takes home the bacon" to his mother regularly, and his clean habits and earnestness have made him one of the biggest favorites in the game with race horse owners.

"Look out for Johnny Corcoran, he's going to be another Tod Sloan," says Mose Goldblatt.

His best day was three winners, two

seconds, and a third.

Pollard Cleared
Promptly By Jury

(Continued From Page One)

that was read and before the jury was discharged Pollard's friends closed about him to shake his hand. His two brothers were among the first to congratulate him and a few minutes later he left the Hastings court building a free man.

The acquittal of Pollard ended one of the most sensational trials in Virginia's criminal court history, including even the famous trial of Henry Clay Heath, who died in the death penitentiary for the murder of his wife. The small details of Pollard's relations with the dead woman, extending over a period of months, were brought out by various witnesses and admitted by the defendant himself.

Mrs. Richardson, formerly Miss Thelma Hain, of Atlanta, was shot to death on the lawn of the Pollard home on the night of December 11 following a quarrel with Pollard. She had gone to the Pollard residence in company with J. Mosby West for the purpose, the prosecution alleged, of seeking an understanding with Pollard concerning his attentions to Mrs. Bertha Louise Fecch. There was a quarrel, a struggle, and the flash of a pistol and Mrs. Richardson was killed by a bullet which penetrated her heart.

Pollard was arrested and West was held as an accessory. A few hours after the killing Pollard was released under \$10,000 bond and a few days later the warrant against West was dismissed. Then followed the lengthy investigation by the police and state authorities. On January 4, the grand jury indicted Pollard on a charge of murder and the case was set for trial on February 12.

Nearly four days were required for the selection of the trial jury, approximately 300 women being called and the first 12 women standing on February 12. Numerous witnesses were called and told their versions of the killing and the events preceding it. A number of defense witnesses testified regarding threats Mrs. Richardson was said to have made against Pollard's life because of his attentions to other women.

Pollard's defense was that the woman was shot by accident, while shooting with him for possession of a pistol with which he said he had tried to kill him. The defendant testified that he took the weapon from her and that she tried to recover it after following him from the porch of his home to the lawn.

(By The Associated Press)

DAYTON, Feb. 23.—Dr. Robert Smart McArthur of New York, president of the Episcopal World Council, died at his winter pastorate of the First Episcopal Church, where he had been ill and cold after a series of operations and cold-air fumigations of the lungs and the events preceding it.

Council, died at his winter pastorate

of the First Episcopal Church, where

he had been ill and cold after a series

of operations and cold-air fumigations

of the lungs and the events preceding

it.

A number of defense witnesses testified regarding threats Mrs. Richardson was said to have made against Pollard's life because of his attentions to other women.

Pollard's defense was that the woman was shot by accident, while shooting with him for possession of a pistol with which he said he had tried to kill him. The defendant testified that he took the weapon from her and that she tried to recover it after following him from the porch of his home to the lawn.
